

# #PARTYCIPATION RAP

Partycipation is about saying what's real.  
Always saying what you feel  
Rhetoricting your corporate spiel  
Takes away from what I'm tryna say.  
Ingredient's there to help us make  
Creative change and get on the same page.  
Involve directly who you want to help  
Passionate about sharing what they felt  
Accessibility to the right utensils  
To Cook the food that is oh so special  
Inventing ways to be involved.  
Optimistic, we can break down these walls.  
Never ever giving up,

Non-judgemental – we should all be loved!  
Everybody needs to feel safe.  
Trauma informed needs to be in the cake.  
We are not just a sweet additive  
Openness makes me feel more than adequate  
Respect is essential for good relationships  
Kindness is everywhere at events like this!
